SEAL®
Seal Brands…the finishing touch

The easy route to a big finish!

The SEAL® Image® 62 Plus Laminator offers new operators an uncomplicated approach to post-print finishing. Designed to be user-friendly, the SEAL Image 62 Plus is ideal for mounting, laminating and encapsulating images up to 61 inches in width.

Its versatile temperature range accommodates both low temperature, heat-activated films - such as SEAL® Print Guard® for inkjet prints - and higher temperature films - such at SEAL® ThermaShield® for electrostatic images.

The SEAL Image 62 Plus is an excellent mid-range laminator that meets your post-print finishing needs without finishing your budget.
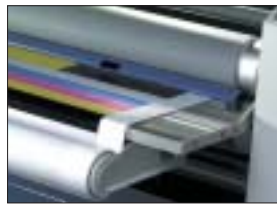

As easy as 1, 2, 3…

Touch-pad control with predefined settings for temperature, speed and substrate thickness.

Swing-out supply shafts with unique auto-grip for easy loading and positioning of materials.

Optional roll-to-roll.

Features

- Touch-pad control panel with pre-programmed temperature, speed and substrate settings
- Automatic front and rear take-up shafts for release liner removal
- A swing-out, in-feed table that makes material loading fast and easy
- Swing-out supply shafts with auto-grip for easy loading and positioning of materials
- Silicone rollers for effortless cleaning
- Simple film tension adjustment
- L.E.D. setting indicators
- Roll-to-roll operation (optional)
- Temperature settings: 122°F (50°C), 203°F (95°C) and 248°F (120°C)
- Built-in cooling fans to cool film for a smooth film surface during heat-sealing applications
- Pull rollers that insure consistent film tension for a flat, even finish
- Accurate electric temperature control for even heating
- Sturdy, stand-alone design with built-in casters and leveling feet
- Quite motor operation
- Anti-static pull roller that eliminates static build-up
- Foot control for hands-free operation
- Extensive safety system with emergency stops, electric eyes and a flashing light/buzzer proximity alarm
- Meets International Safety requirements

SEAL® Image® 62 Plus Laminator

Specifications	Image® 62 Plus
Maximum working width	62" (1,575 mm)
Maximum speed	6 feet per minute (1.8 m/min.)
Maximum roller opening	1" (25 mm)
Maximum roller temperature	250ºF (120ºC)
Dimensions	Width: 86.6" (2,200 mm)
	Depth: 24.8" (762 mm)(excluding tables)
	Height: 48" (1,220 mm)
Net weight	1,153 lbs (530 kg)
Shipping weight	1,263 lbs (580 kg)
Electrical requirements	3N/PE-200 – 250 VAC, 50/60Hz, 25 A
	1N/PE-200 – 250 VAC, 50/60Hz, 32 A
Maximum power consumption	7,000 Watts

Note: It is recommended that your main power be installed by a licensed electrician in accordance with electrical codes in your area.
